***** Please provide copies of your insurance cards to the receptionist to insure accurate billing.**

I authorize the release of any medical information which may be requested to process claims for payment of medical services through my insurance carrier, prepaid medical plan, or government agency. I authorize payments to be made to the clinic or it's physicians. I assume liability for all non-covered charges and deductibles. By providing a mobile/cell number I have authorized contact through that number for any activity involving services to me, including but not limited to the resolution of balances on my account. This number will not be shared with any party other than those in-house or any business entity contracted to perform duties resulting from services provided to me by this office. By signing this form I acknowledge that I have received a copy of the Notice of Privacy Practices of Family Medicine Center of the Bitterroot.

Payment Policy

Thank you for choosing us as your primary care provider. We are committed to providing you with quality and affordable health care. Because some of our patients have had questions regarding patient and insurance responsibility for services rendered, we have been advised to develop this payment policy. Please read it, ask us any questions you may have, and sign in the space provided. A copy will be provided to you upon request.

1. **Insurance.** We participate in most insurance plans, including Medicare. If you are not insured by a plan we do business with, payment in full is expected at each visit. If you are insured by a plan we do business with but don't have an up-to-date insurance card, payment in full for each visit is required until we can verify your coverage. Knowing your insurance benefits is your responsibility. Please contact your insurance company with any questions you may have regarding your coverage.

2. **Co-payments and deductibles.** All co-payments and deductibles must be paid at the time of service. This arrangement is part of your contract with your insurance company. Failure on our part to collect co-payments and deductibles from patients can be considered fraud. Please help us in upholding the law by paying your co-payment at each visit.

3. **Non-covered services.** Please be aware that some–and perhaps all–o f the services you receive may be noncovered or not considered reasonable or necessary by Medicare or other insurers. You must pay for these services in full at the time of visit.

4. **Proof of insurance.** All patients must complete our patient information form before seeing the doctor. We must obtain a copy of your driver's license and current valid insurance to provide proof of insurance. If you fail to provide us with the correct insurance information in a timely manner, you may be responsible for the balance of a claim.

5. **Claims submission.** We will submit your claims and assist you in any way we reasonably can to help get your claims paid. Your insurance company may need you to supply certain information directly. It is your responsibility to comply with their request. Please be aware that the balance of your claim is your responsibility whether or not your insurance company pays your claim. Your insurance benefit is a contract between you and your insurance company; we are not party to that contract.

6. **Coverage changes.** If your insurance changes, please notify us before your next visit so we can make the appropriate changes to help you receive your maximum benefits. If your insurance company does not pay your claim in 45 days, the balance will automatically be billed to you.

7. **Payment.** If your payment is made in full at the time of service, a discount will be applied to the balance.

8. **Nonpayment.** If your account is over 60 days past due, you will receive notification stating that you have two weeks to pay your account in full. Partial payments will not be accepted unless otherwise negotiated. Please be aware that if a balance remains unpaid, we may refer your account to a collection agency and you and your immediate family members may be discharged from this practice. If this is to occur, you will be notified by regular and certified mail that you have 30 days to find alternative medical care. During that 30-day period, our physician will only be able to treat you on an emergency basis.

Our practice is committed to providing the best treatment to our patients. Our prices are representative of the usual and customary charges for our area.

Thank you for understanding our payment policy. Please let us know if you have any questions or concerns.

I have read and understand the payment policy and agree to abide by its guidelines:

Prescription Refills

Dear Patient,

We take our commitment to your health seriously and prescribing medicine is an important service we provide to you. For this reason, we ask that you follow these guidelines when refilling your prescription medicines.

1. **Office visits are almost always required to obtain a prescription drug refill.** The reason for this is to evaluate the particular disease or condition that the drug is treating and also to monitor for any drug side effects.

2. **We intentionally will give you enough refills of your medicine until we need to see you again.**

3. **Each prescription will indicate the length of time it is good for and how many times the prescription can be refilled by the pharmacy.** If you take several medicines, we try to synchronize the prescriptions so that they can all be refilled at the same visit in order to use your time more efficiently and your money more effectively.

4. **When you have one month remaining of your last refill, you need to call and make an appointment to see your doctor.** Sometimes, blood tests are needed before you see your doctor and these should be scheduled as well.

5. **We generally do not call pharmacy 1-800 numbers for refills.**

6. **We feel that telephone refills are not the best way of refilling medicine and will only do so as a short term service. We ask that you only request telephone refills in an emergency.**

7. **Please discuss any concerns with your physician.**
